HISTORICAL AND BIOGRAPHICAL NOTES

While some counties voluntarily kept records of death since 1883, it was not until legislation approved May 6, 1909, that death certificates became mandatory. The legislation was to "provide for the immediate registration of all births and deaths throughout the state of Missouri by means of certificates of births and deaths and burial or removal permits; requiring prompt returns to the central bureau of vital statistics at the

capital of the state, as required to be established by the state board of health, and to insure the thorough organization and efficiency of the registration of vital statistics throughout the state, and providing certain penalties" (*Laws of the State of Missouri, 1909*, page 538).

In 2004, House Bill 1634 made changes to RSMo 193.225 and 193.245 (4), the Missouri statutes that govern the reproduction of vital records and the information contained in them. This legislation, effective August 28, 2004, states that death records over fifty years old will be transferred to the Missouri State Archives, and copies of death records over fifty years old may be disclosed upon request. The Missouri State Archives can only provide uncertified copies. To obtain certified copies of death certificates, researchers must contact:

DEATH CERTIFICATES, 1910-1960

Arrangement: Chronological by year and thereunder numerical by certificate number

Scope and Content

Death certificates begin in 1910 and contain, where provided, the following information: name, age, marital status, date of death, residence, place of death, place of birth, parents' names and birthplaces, cause of death, affidavit of attending physician, burial, and name of informant. Accuracy of personal information is dependent on the knowledge of the informant, who may or may not have been a family member. Corrected information may be found on supplemental certificates.
